

Historical Society of Clarendon VT

October 17, 2019 6PM Town Hall

This meeting consisted of an interesting and informative talk by Garret Crift on the history of Native American Indians of New England, Vermont and Clarendon. Compared to Southern New England, the documentation of the Native American presence in Vermont is sparse which made this presentation all the more educational. A YouTube video of the presentation made by Phil Mandolare can be found in the Newsletters and Presentations collection.

Fourteen people were in attendance.

The November 21st meeting will be a talk on the history of railroads in Clarendon by Matt Rockwell.
